

Off-shore Reels

Hose & Reel Products is the largest European designer and manufacturer of high quality hose and cable Reels for the heavy industrial shipment and off-shore market. This brochure describes and gives specifications of our experience and products. If you don't see what you're looking for, give us a call and we will help you to meet your needs.

Hose & Reel Products is a specialist in designing hose and cable Reels for the ship builders and off-shore market. Since several years is Hose & Reel Products operating in this market and achieved many goals by supplying our clients with high quality reels. Our policy is that we always find the right Reel for the right application.

Our strength is that all our engineering and building facility's are made for special design applications so we can build a customized Reel within 4 till 6 weeks depending on the size of the reel. Our quality management system is very close attached between customer and manufacturing process. Therefore we can provide an easy assembly system for the Reels that will be installed. This saves installation time for the dry docks. All our Reels will be delivered according to the international standards and will have a warranty period of 2 years.

Hose & Reel Products is the only Reel manufacturer that provides his customers the convenience of a standard reel with the applications full customized according to their purposes. Hose & Reel Products always uses the best quality steel, stainless steel 304 or 316L and aluminum. Our Reels can be protected with E-coating and every kind of colour our client requires. Craftsmanship is our highest priority.

We have always the right Reel for you!
