

Reels for Fire Trucks

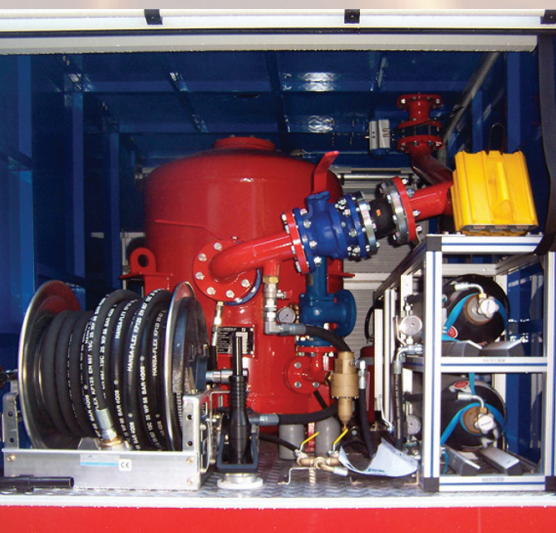

Reels for Fire Trucks

Hose & Reel Products BV is the leading European designer and manufacturer of tailor made, high quality hose and cable reels for the Fire Truck builders market. The strength of Hose & Reel Products BV is that all our engineering and building facilities are made for special design applications. The quality management system is very close attached between customer, design department and manufacturing process. Therefore we can provide an easy assembly system for the Reel. Our experience in numerous different scopes for fire trucks is enormous and we believe that we will always find a solution for the client's problem. Our design and production process gives us the possibility to design a reel according to the sizes that the total concept requires.

Whatever your need, we have a solution:

- All kinds of dimensions and perfectly suited for small working areas.
- Can be powered in every way depending on what is provided or required.
- Reel can be used, also with high working pressures, for any kind of medium like:
 - Water or foam for fire fighting.
 - Temporary groundwater discharge.
 - Air for pneumatic tools, air supply.
 - Oil for hydraulic tools and machines.
 - Electricity for electric tools, lights.
 - Communications.
- Available materials: Steel, Stainless Steel, aluminum and plastic.
- The reels meet the highest European and Worldwide safety regulations.
- All parts of the reel can be made ATEX proof. This reduces the chance of explosions.
- Every kind of paint and coating can be applied.

Hose & Reel Products BV is the European Reel manufacturer that can provide it's customers the convenience of a simple Reel with the applications of a fully customized Reel according to their purposes. If you have further questions, please contact us.
