

Reels for Heavy Industry

Reels for heavy industry

Hose & Reel Products B.V. is one of the few European designers and manufacturers of high quality hose and cable reels for the industrial market, used for different purposes like: Hydraulics, water, chemical transfer, power supply, etc. For years Hose & Reel Products is operating in this market and achieved many goals.

What is the advantage of reels instead of other methods:

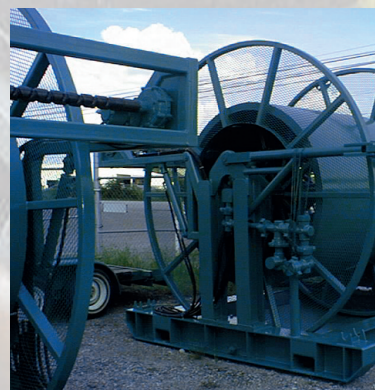

- User friendly;
- Compact (small footprint);
- Saving time (unrolling and rolling);
- High lifetime;
- No more danger of unstored loose hoses on the workplace after use.

Whatever your need, we have a solution:

- All Reels meet the highest International quality and safety standards
- All Reels and parts can be manufactured with explosion proof components, according EC Declaration of Conformity (ATEX Directive 94/9/EC)
- Very large range of standard reels
- Standard reels can be customised easily
- We can deliver the complete package: Reels, Hoses, Couplings, refuelling guns, flow meters, PLC control etc.
- Short delivery time
- Competitive pricing level for a high quality Reel
- Available materials: steel, stainless steel 304 or 316L and aluminium
- Manufactured for easy installation.
- E-coating and every kind of colour our client requires

Hose & Reel Products bv is one of the few reel manufacturers that provides his customers the convenience of a standard reel with the applications of a full customized reel according to their purposes. At Hose & Reel Products craftsmanship is always the highest priority.
